

SEACHOICE™

Ultradwarf Bermudagrass

The reliable warm season greens grass
now available from Outfield's nursery in Quang Nam, Vietnam.

SEAChoice Ultradwarf exhibits all the traits golf superintendents need from a greens-quality hybrid Bermuda grass.

SEAChoice Ultradwarf's leaf blades are extremely fine and erect, and maintain density, delivering excellent trueness for putting. The turf produces few seedheads and maintains its color throughout heat and longer into the fall.

Outfield grows "**SEAChoice**" **Ultradwarf Bermudagrass** to the highest standard in its certified nursery in Quang Nam, just outside Danang.

*Improved Speed, Consistency and Overall Playability.
Superior Color Retention, Even Under Cool Conditions*

SEAChoice Ultradwarf Bermudagrass

**Smooth Transition During Overseeding and Spring Green-up
Much Less Thatch Buildup Than Other Ultradwarfs**

SEAChoice Ultradwarf provides high-quality putting surfaces at cutting heights of .125" and lower. Several morphological characteristics give **SEAChoice** its unique advantages:

- Excellent root system structure.
- Rhizomatous rather than stoloniferous growth habit.
- Superior color, even in cool conditions.
- Strong tolerance to verticutting.
- Rapid regrowth from mechanical injury.
